

**1.866.482.7364**

**Choose Dyrand and have your PCs, servers, data backup, and IT strategy cared for by experts, so you can get on with the business of growing your business**

## How You Benefit When Dyrand is Your Virtual IT Department:

- Enjoy 24/7 monitoring and proactive management of your network
- Get a whole team of expert technicians—including a helpdesk—all for a fraction of the cost of one employee
- Tame your IT budget with a predictable, flat monthly fee
- Growing quickly or anticipate cut-backs? Embrace a flexible IT support solution that scales in sync with your changing needs
- Gain strategic IT insight with the help of your own virtual Chief Information Officer *(see next page)*

## About Dyrand Systems

Small to mid-size businesses in the US and Canada have enjoyed the peace of mind that comes from choosing Dyrand Systems to care for their technology needs since 2001.

Committed to making IT a business-friendly resource, Dyrand relieves network pain so you can stop thinking of your system as IT and start using it as the tool it was meant to be.

## What Dyrand Can Do For You

Your IT provider should share your goals as a business, and work with you to help you reach them. Dedicated to understanding your business's real needs, Dyrand gives you more than just outsourced IT support—you get the key to using IT strategically as a real asset for your growth.

Choose Dyrand's **Allied Insight IT Support System** for your SMB and brag about having expert care for your PCs, servers, network and data protection needs—all for a flat monthly fee. We'll even include your very own Chief Information Officer

**PC Support**

**Server Support**

**Data Backup**

**Network Security**

## Our Clients

Dyrand specializes in providing outsourced IT support—also referred to as *managed IT services*—for companies with 10 to 200 computer users.

Dyrand's client list includes businesses ranging from manufacturing to non-profits and the whole spectrum in between. Have multiple branches spread out across North America? *Practically all Dyrand's support services are delivered remotely*, so if your business is connected to the internet, our team of technicians are as good as at your side in any network emergency, *365 days a year*.

**Make IT Support  
an Ally.**

**Proactive network  
management and  
real strategic insight  
means fewer surprises,  
better performance  
and peace of mind  
for your business**

## Why You'll Love Having Your Very Own Virtual Chief Information Officer:

- **Get a translator:** Complex network data is summarized in plain English, so you'll have all the information you need to make the best decisions
- **Benefit from Quarterly Business Reviews:** Stay on top of changes in your business's IT needs and adjust your resources a step ahead of when you'll need them
- **Decrease Risk and Costs:** Avoid investing in upgrades you don't need. Rest easy knowing your vCIO will recommend changes to your network only where you'll see real benefits—not where the biggest margins are!

## Get IT Support That Fits Your Business

Is Dyrand the best solution for your business's IT needs? If you want a flexible, comprehensive technology solution that's custom-tailored to your business's unique character, *the answer is yes*. When you choose Dyrand, you'll enjoy IT support that gives you peace of mind from fewer surprises and better network performance. Plus, your IT support will scale in direct proportion to your growth.

Dyrand's **Microsoft Gold Certification** means you can count on our friendly technicians for outstanding support that's on top of the latest developments in business networking. The value of your investment in your relationship with Dyrand comes not only from simplifying how you deal with IT, but from the convergence of technical expertise with sincere, human helpfulness.

## Proactive IT: The Simple Approach to Network Stability

If you've been wrestling with one IT problem after another and the constant state of emergency is causing you more anxiety than you care to have, you can stop the cycle of band-aid solutions for your network, once and for all.

Why wait for something to break, then stress out about how much it will cost to fix when you can have ongoing preventative maintenance that gives you disaster-free IT—and reduces your IT support expenses in the process? Dyrand's **Allied Insight IT Support System** gives you a stable network for the long term.

## Plan to Grow? IT Strategy Helps

No IT department—virtual or otherwise!—would be complete without someone at the helm to point you in the right direction. That's why you'll love having your own *virtual Chief Information Officer* (vCIO) to help you maximize your IT investment to increase your revenues, decrease costs and decrease risk.

Included in the flat monthly fee of your **Allied Insight IT Support System**, your vCIO will meet with you quarterly to review the dynamic needs of your business. We'll work with you to create an IT strategy to that will keep your business on course with your objectives.
